

Glenarm Organic Salmon

Glenarm organic salmon are renowned for their outstanding quality derived from the clean, clear and fast flowing coastal waters of the Irish Sea. A first choice for top tier International chefs.

Grown in a very exposed area of Ireland's North Channel in powerful currents and tidal flows that ensure optimal exercise for firm fleshed fish. Less than 10 kg of salmon per cubic meter of water allows for stress free growth that is one of the cornerstones of responsible farming practices that earn an organic certification.

This unique environment isolates them from salmon producers ensuring the use of no antibiotics or other medicines to treat parasites and diseases associated with wild and conventionally grown salmon.

Every activity undertaken on the farm ensures the fish's ability to behave as naturally as possible. The aim is to produce salmon that match if not exceed the quality of wild Atlantic with more consistency in texture, shape, size and flavor.

*Available Weekly: Pre-order each Wednesday.
Fish arrives Monday each week in Boston.*

*Available forms:
Whole: 3/4 kg up to 7/8kg
Fillets: 3-4 lb, 4-5 lb*

Glenarm Organic Salmon is harvested to order and can leave Ireland's waters and be on your plate in less than four days.

Glenarm practices the highest possible welfare standards to produce salmon that is fresh, nutritious and full of flavor. Reared in accordance with the strict organic standards of Bio Suisse and the Irish Organic Association. Glenarm salmon are fed daily by hand to monitor fish behavior and appetite. This assures all fish are fed evenly to optimize growth and achieve minimal waste. Glenarm's all organic feed is derived from sustainable sources that are certified free of GMO's. Glenarm is a leader in responsible environmental stewardship to conserve Northern Ireland's rich biodiversity.

Salmon is part of Ireland's ancient mythology. A fish who carries all the world's knowledge. Legend has it that the first person to eat its flesh would, in turn, gain this knowledge. Glenarm offers you a taste of this heritage.
